

## Liechti Powerful Solutions

# A-axis analogue sensor upgrade

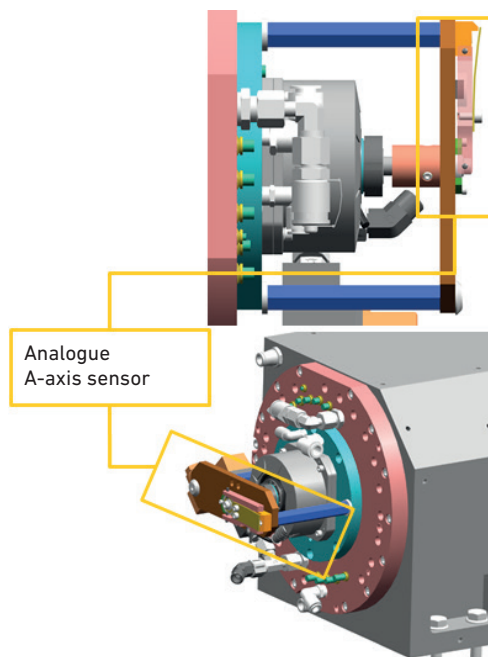

### Increased process stability = increased productivity

For this reason, we offer an upgrade of the A-axis with an analogue sensor instead of using the existing digital sensor by a Liechti field service engineer.

**This upgrade at your facility will be completed within two working days.**

- Based on proven references, we offer you this preventive upgrade to ensure the highest process stability of your airfoil production
- Drastic reduction of the sensor calibration time to reduce downtime to a minimum
- Eliminate disturbances connected to chuck monitoring

**Please contact us for more information!**

## Turbomill

We're pleased to provide an offer based on your specific requirements. We've got the right solution for you!

### Special Offer

Four steps to increase your profit

#### Plan Your Profit

Solution engineering of your technical and economical production requirements

#### Performance

g-Technology for highest quality and quantity output

#### Partnership

Support and performance updates over entire machine life

#### Profitability Increase
